

District Youth Lead Report 2026

First, I wanted to say thank you for being outstanding volunteers and for helping the young people in this district learn new but essential skills.

This year has been my first as district youth lead. I have taken the opportunity to observe what happens within sections throughout the year and to come up with ideas for increasing young people's engagement.

It has been wonderful to see so many young people across all sections, from Squirrels to Network, receive their top awards at the presentation evening. And having so many of us attend Remembrance Day in November and take part in another amazing parade.

I have been brainstorming ideas to create district activity days aimed at earning activity badges and potential top awards. In addition, I have been helping Alex and Ganga organise the upcoming district camp in September, and we have been implementing activities that will help young people earn their London Challenge Award.

I hope for another successful year, to watch the young people grow further in their life skills, and to reach their full potential within scouting through this youth-led movement.
